## **II. COURSE AIMS**

Internship 1 aims to offer students the opportunity to observe how the knowledge that they have learned in the university is applied to real-life environments and to understand the daily problems that they have to face in their relevant fields. In addition, students can acquire important general professional skills such as time management, discipline, self-learning, effective communication and so on. It is expected that the skills students gain from working in a professional setting will help them perform better in their jobs after graduation.

## **III. COURSE DESCRIPTION**

Internships can be with a variety of host organizations, including foreign companies, schools and universities, foreign language centers, travel companies, translating offices etc. Students will attend workshops, proceed with classroom observation, and work with professors in their discipline and/or the Internship Director to establish plans and learning objectives specific to their internships. A minimum of 15 working days is required (5 days of site visiting, 5 days to

write the final report, and 5 days to get approval from the Supervisor). Specific deliverables include a Registration form, Attendance records and/or certificate of participation, and two final reports completed by the intern and evaluated with comments by the Supervisor(s) to be assigned at the beginning of the course.
